

726-5X 13,56MHz Remote Antennas on flexible PCB

General:

13,56MHz antennas on flexible PCB suitable for all our 13,56MHz Read-only and Read / Write Modules.

Properties:

- Available in 3 different sizes, optimized for cards, tags or both
- Adaptable to metallic environments by tuning capacitor
- Can be glued to curved housings

Technical Data:

Antenna:	Antenna in different sizes - Construction: fine-tunable foil antenna
Dimensions	726-52 - 80 x 50 mm, 726-53 - 45 x 40 mm, 726-54 - 60 x 35 mm, 16cm Coax Cable
• Frequency:	13,56 MHz
• Reading Distance:	Up to 75 mm
• Operating Temperature:	-20 to +50°C
